

PRESS RELEASE

globalCOAL Launches Updated RB4 4800 RSS

LONDON AND SINGAPORE, 1 July 2025

globalCOAL® announced today the launch of a revised version of its **Richards Bay RB4 4800 thermal coal RSS** — one of the key specifications under the Standard Coal Trading Agreement (SCoTA®).

The updated RSS incorporates the **latest RBCT regulations**, as well as current **nomination, delivery and demurrage practices** in the Richards Bay coal market.

These enhancements aim to support **liquidity and transparency** in the RB4 4800 market, and form part of globalCOAL's commitment to the continuous improvement of SCoTA.

The **RB4 4800 RSS (Version 2)** is now available on the globalCOAL website to all licensees, and will take effect on 31 July 2025.

###

About globalCOAL

globalCOAL® provides a venue for online trading of thermal and metallurgical coal. Its standard specifications and delivery terms and conditions (SCoTA®) enable quick and efficient transactions, whether online or offline. The reliable and objective data its trading platform generates has helped bring much needed transparency and price visibility in the seaborne thermal and metallurgical coal markets. globalCOAL is a trading name of Global Commodities Holdings. For more information, please visit www.globalcoal.com.

About globalCOAL®

globalCOAL was founded by leading members of the world coal industry to promote screen trading of standardised coal products. The company has developed the world's leading electronic marketplace for thermal coal, as well as a range of standardised coal quality specifications, a Standard Coal Trading Agreement (SCoTA®), and robust methodology for coal price index calculation. globalCOAL is also cooperating with leading energy exchange ICE Futures Europe to develop the coal Futures market.
